

PHASE 8 – PROJECT DEMONSTRATION PHASE

Project Title: FitBuddy – AI Fitness Plan Generator using Gemini Models

Team Members: Vennila, Varsha, Vijayalaksmi, Vaishnavi

1. Demonstration Overview

The final demonstration should show the complete FitBuddy workflow from user input to AI-generated fitness-plan output. The demonstration should use the actual working project.

2. Demo Video Structure

Part	What to Show
Introduction	State project name: FitBuddy – AI Fitness Plan Generator using Gemini Models.
Purpose	Explain that FitBuddy uses user-provided fitness information to generate a structured AI-assisted plan.
User Input	Show age, fitness goal, activity level, workout days and optional preferences.
Execution	Submit the form and show the application processing the request.
AI Output	Display the generated fitness plan and explain its structure.
Final Output	Show the complete result clearly and briefly explain the usefulness of the application.

3. Suggested Voice-over Script

“Our project is FitBuddy, an AI Fitness Plan Generator using Gemini Models. The purpose of this project is to provide simple and structured fitness guidance based on user-provided information. Here, the user enters basic details such as age, fitness goal, activity level and workout days. After submitting the details, the application processes the information using Gemini and displays a structured fitness plan. The final output contains a suggested routine and general fitness guidance based on the provided inputs.”

4. Demo Checklist

- Start screen is visible.
- Project name is stated.
- Purpose and benefits are explained.
- User inputs are entered on screen.
- Project execution/working process is shown.
- Gemini-generated output is shown.
- Final output is explained.
- Screen sharing and student voice-over are included.
- Video is uploaded to Google Drive with appropriate viewing access.

5. Submission Links

Submission Item	Link

Submission Item	Link
Demo Video	[ADD YOUR GOOGLE DRIVE DEMO VIDEO LINK]

6. Final Demonstration Note

Only the actual repository and actual recorded demo link should be inserted before submission. Do not submit placeholder links.

7. Conclusion

The demonstration phase presents the completed FitBuddy project and shows how the system moves from user input to AI-generated output. It provides the final visual evidence of the project's working process.
